It has been given to no other afternoon newspaper to acquire within so few years so many and such steadfast friends and readers. The paper has never found Itself alone. And seeing the circle of its adherents growing thicker and thicker, day by day, month by month and year by year, it has been encouraged to extend again and again the sphere of its earnest endeavor. It has accomallshed many things. Some of these are eferred to in other columns and none of he details need be brought in here. But in whatever it has done, the paper never has failed to divide credit fairly with the people, who, realizing that it meant to serve them, returned all the aid and encouragement within their power.

So "The Evening World" feels that it does not celebrate alone to-day. The joy at Sing Sing. of the anniversary is shared with the thousands and thousands to whom the paper is a daily messenger, a welcome visitor, perchance an instructor and alstill more within the eighth year, that opens as the seventh is rounded off.

One of the ponderous dramatic writers in Chicago is fearfully scandalized at "The Passing Show," and preaches a sermon on the suppression of vice with the harmless skit as a text. What arouses his ire is the constances worn by the Phrynettes.
